Why do I need a website?
Do You Know?

Malaysia tourists both domestic and international often forget about how beautiful Malaysia are!

More and more affordable, nice, calming and relaxing staycation has now opened with the strategy to bring and introduce to the guest how wonderful is it to escape from hectic and busy major cities.

Booking and Reservation System

Have your own booking and reservation system personally developed for your business. Worry less for mis-scheduling and mismanagement for all the bookings! Even your guest can pay up online with payment gateway intergration.

Packages Directory

Level up your staycation by providing packaging concept for your future guest! We can arrange that for you.

Staycation Management System

Let us develop your own staycation management system where you can managed literally EVERYTHING from organizing your guests, staffs and even your facilities!

Why choose us?

See from our fresh prespective!

NFinity might be a new company incorporated on 2024. but we have more then 5 years experience in Information Technology. We work like a team with our clients as we also want to be a part to ensure a smooth transition to #staycation digitalization

We want the best for your sweet #staycation spots.
Owning an informative website can attract not only domestic tourist, but also potentially international tourist.

Malaysia Truly Asia!

Visit Malaysia 2026 Objectives

This project initiative aims to highlight hidden gems such as Hulu Langat, Negeri Sembilan, and other eco-tourism destinations, offering unique accommodations that blend comfort with nature. By promoting sustainable travel and authentic local experiences, we seek to enhance Malaysia's appeal as a top staycation destination while supporting local businesses and communities.

27% Increment expected for international tourist that came to Malaysia. Having a great landing page can llevel up your staycation as well
